2020
Advisory Committee
June 19, 2020
Guiding Plans and Policies

1. 2006 King County Flood Hazard Management Plan
2. Acquisition Policy
3. Fund Balance Policy
4. Levee Accreditation and Certification
5. SEPA Policy
6. Final System-Wide Improvement Framework for Lower Green - 2019
7. Capital Investment Strategies
**TOLT RIVER CAPITAL INVESTMENT STRATEGY**

The TOLT River basin covers 230 square miles, beginning in the upper reaches of the Snoqualmie River. The river is noted for its diverse water quality and species diversity, which attracts a variety of recreational activities. This strategy aims to enhance the natural environment and promote sustainable development.

**Proposed Infrastructure Projects:**
- Streamside Grace Park
- Shoreline Water Quality Improvements
- Riparian Buffer Expansion
- Fish Habitat Restoration
- Wetland Enhancement
- Water Quality Monitoring

**Proposed Watershed Restoration Projects:**
- Habitat Restoration
- Stream Restoration
- Wetland Creation
- Water Quality Improvements
- Fish Passage

**Proposed Outreach and Education Projects:**
- Public Outreach
- Educational Programs
- Volunteer Opportunities
- Community Engagement

**Costs & Benefits:**
- Initial Investment: $100,000
- Annual Maintenance: $20,000
- Economic Benefits: $500,000

**Timeline:**
- Project Initiation: Q1 2022
- Construction: Q2 2022
- Completion: Q4 2023

**Contact Information:**
- Project Coordinator: John Doe
- Phone: 555-1234
- Email: johndoe@toltriver.com

---

**Notes:**
1. Initial project kickoff meeting set for Q1 2022, including key stakeholders and project partners.
2. Funding secured through a combination of federal grants and private donations.
3. Construction phase anticipated to begin in Q2 2022, with anticipated completion by Q4 2023.
4. Post-project monitoring to occur in Q1 2024 for evaluation of effectiveness.

FAQs

1. What is the District’s levy rate and how much tax is collected?

2. How does the District determine that a project will be added to the 6-Year CIP?

3. What is the status of the Flood Hazard Management Plan Update?

4. Who are the District’s partners?

5. What is the role of service providers such as King County, local jurisdictions, and the United States Army Corps of Engineers?
Implementation Opportunity Potential

Flood Risk Reduction Potential

Address Project Constraints or Rescope

High Priority

Medium Priority

Low Priority

NOT A PRIORITY

NOTE: This is a conceptual diagram and is not intended to imply clear and distinct thresholds between these categories.
2020 King County Flood Control District Budget

- Flood District Administration: $913,238
- Maintenance and Operation: $13,464,210
- Construction and Improvements: $94,984,555

Total Budget: $109,362,003
2020 Countywide Grant Funding

- Flood Reduction: $3.35 million
- Sub-Regional Opportunity Fund: $6.09 million
- Cooperative Watershed Grants: $9.6 million
2021 New Grants

Flood Reduction
- Amount: $3 million

Urban Streams

Coastal Erosion/Coastal Flooding

Culvert Replacement

Eligibility: Governments and Tribes
Criteria: To be established through consultative process
Requirement: Flood Risk Reduction
Amount: $9 million total; $3 million per category
